  - Validation fields are customizable by biller, and are determined during the implementation process
- **If the payer needs assistance or further explanation of the validation fields, they can select the question mark next to one of the fields to show the image of your statement/coupon.**
- The screen will prompt you to type in your First Name and Last Name (both are required fields). Phone Number is not required. After you enter the information, select Next.

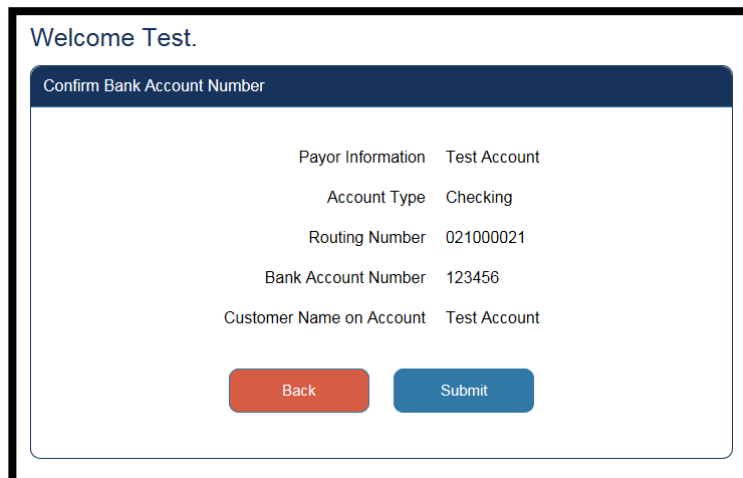

- The next step is to establish your user ID and password. The email address serves as both a user ID as well as the address to which electronic communications will be sent.
